

The Commission of the University of Potsdam for the Investigation of Scientific Misconduct has determined that the preprint

N. Tarkhanov,

“Root functions of elliptic boundary problems in domains with conic points on the boundary”

(Preprint **2005/07**, ISSN 1437-739X,

Institut für Mathematik, Universität Potsdam, 2005)

is largely identical to the publication

Yu.V. Egorov, V.A. Kondratiev, B.-W. Schulze,

“On the completeness of root functions of elliptic boundary problems in a domain with conical points on the boundary”

(Preprint **2004/17**, ISSN 1437-739X,

Institut für Mathematik, Universität Potsdam, 2004).
