

Publications of Chandrashekar Devchand

1. (with D.B. Fairlie) A generating function for hidden symmetries of chiral models, *Nuclear Physics* **B194** (1982) 232-236
2. (with E. Corrigan, D.B. Fairlie and J. Nuyts) First order equations for gauge fields in spaces of dimension greater than four, *Nuclear Physics* **B214** (1983) 452-464
3. Complete integrability in classical field theories, Ph.D. Thesis, Univ. of Durham (1983)
4. An infinite number of continuity equations and hidden symmetries in extended supersymmetric gauge theories, *Nuclear Physics* **B238** (1984) 333-348
5. (with D.B. Fairlie) Bogomolny equations and dimensional reduction, *Physics Letters* **141B** (1984) 73-75
6. (with Y. Brihaye and J. Nuyts) Self-duality for eight dimensional gauge theories, *Physical Review* **D32** (1985) 990-994
7. Hidden symmetries of gauge potentials in supersymmetric gauge theories, *Physical Review* **D32** (1985) 2143-2147
8. Some features of complete integrability in supersymmetric gauge theories, in *Field Theory, Quantum Gravity and Strings*, Lecture Notes in Physics, Vol. 246, 190-205 (Springer, Berlin, 1986)
9. Integrability on lightlike lines in six dimensional superspace, *Zeitschrift für Physik C -Particles and Fields* **32** (1986) 233-236
10. $N=3$ extended supersymmetric gauge theories and an explicit construction of higher conservation laws, *Journal of Mathematical Physics* **30** (1989) 2978-2983
11. A q -analogue of the Lie superalgebra $osp(2,1)$ and its metaplectic representation, in *Differential Geometric Methods in Theoretical Physics*, (ed. L.-L. Chau and W. Nahm), Plenum Press, 1990
12. (with M.V. Saveliev) Comultiplication for quantum deformations of the centreless Virasoro algebra in the continuum formulation, *Physics Letters* **258B** (1991) 364-368
13. (with V. Ogievetsky) Super self-duality as analyticity in harmonic superspace, *Physics Letters* **297B** (1992) 93-98; arXiv:hep-th/9209120
14. (with V. Ogievetsky) The super self-dual matreoshka, in *New Developments in String Theory, Conformal Models and Topological Field Theory*, (Plenum Press, 1993); arXiv:hep-th/9310072
15. (with V. Ogievetsky) All supersymmetric self-dual gauge theories, in *Theory of elementary particles*, DESY-94-053, Proc. Wendisch-Rietz-1993 Symposium, 227-233
16. (with A.N. Leznov) Bäcklund transformation for supersymmetric self-dual theories for semisimple gauge groups and a hierarchy of A_1 solutions, *Communications in Mathematical Physics* **160** (1994) 551-562; arXiv:hep-th/9301098

17. (with V. Ogievetsky) The structure of all extended supersymmetric self-dual gauge theories, *Nuclear Physics* **B414** (1994) 763-782 (E: *ibid.* **B451** (1995)); arXiv:hep-th/9306163
18. (with V. Ogievetsky) Four dimensional integrable theories, in *Strings and Symmetries*, ed. G. Aktas et al, *Lecture Notes in Physics* **447** (1995) 169-182, (Springer, Berlin); arXiv:hep-th/9410147
19. (with V. Ogievetsky) Self-dual supergravities, *Nuclear Physics* **B444** (1995) 381-400; arXiv:hep-th/9501061
20. (with V. Ogievetsky) Integrability of N=3 super Yang-Mills equations, in *Topics in Statistical and Theoretical Physics* ed. R. Dobrushin et al, *Amer. Math. Soc. Transl. (Ser. 2)* **177** (1996) 51-58; arXiv:hep-th/9310071
21. (with V. Ogievetsky) Self-dual gravity revisited, *Classical and Quantum Gravity* **13** (1996) 2515-2536; arXiv:hep-th/9409160
22. (with V. Ogievetsky) Conserved currents for unconventional supersymmetric couplings of self-dual gauge fields, *Physics Letters* **367B** (1996) 140-144; arXiv:hep-th/9510235
23. (with V. Ogievetsky) Unravelling the equations of self-dual supergravity theories, *Nuclear Physics* **B(PS) 49** (1996) 139-143; arXiv:hep-th/9602058
24. (with V. Ogievetsky) Interacting fields of arbitrary spin and $N > 4$ supersymmetric self-dual Yang-Mills equations, *Nuclear Physics* **B481** (1996) 188-214; arXiv:hep-th/9606027
25. (with J. Nuyts) Self-duality in generalised Lorentz superspaces, *Physics Letters* **404B** (1997) 259-263; arXiv:hep-th/9612176
26. (with J. Nuyts) Supersymmetric Lorentz-covariant hyperspaces and self-duality equations in dimensions greater than $(4|4)$, *Nuclear Physics* **B503** (1997) 627-656; arXiv:hep-th/9704036
27. (with J. Schiff) Hidden symmetries of the principal chiral model unveiled, *Communications in Mathematical Physics* **190** (1998) 675-695; arXiv:hep-th/9611081
28. (with J. Schiff) Hidden symmetries of the principal chiral model and a nonstandard loop algebra, *Physics Letters* **B418** (1998) 155-159; arXiv:hep-th/9701059
29. (with D.V. Alekseevsky, V. Cortés and U. Semmelmann) Killing spinors are Killing vector fields in Riemannian supergeometry, *Journal of Geometry and Physics* **26** (1998) 37-50; arXiv:dg-ga/9704002
30. (with O. Lechtenfeld) Extended self-dual Yang-Mills from the $N=2$ string, *Nuclear Physics* **B516** (1998) 255-272; arXiv:hep-th/9712043
31. (with J. Nuyts) Lorentz covariant spin two superspaces, *Nuclear Physics* **B527** (1998) 479-498; arXiv:hep-th/9804052
32. (with J. Nuyts) Lorentz covariance, higher-spin superspaces and self-duality, *AIP Conference Proceedings* **453** (1998) 317-323; arXiv:hep-th/9806243

33. (with O. Lechtenfeld) On the self-dual geometry of N=2 strings, in: *Theory of Elementary Particles*, ed. H. Dorn et al, Wiley-VCH (1998); arXiv:hep-th/9801117
34. (with O. Lechtenfeld) String-induced Yang-Mills coupling to self-dual gravity, *Nuclear Physics* **B539** (1999) 309-328; arXiv:hep-th/9808053
35. (with J. Schiff) Supersymmetric integrable systems from geodesic flows on superconformal groups, *Теоретическая и Математическая Физика* **123** (2000) 182-188 (*Theoretical and Mathematical Physics* **123** (2000) 563-568); arXiv:nlin.si/0008017
36. (with J. Schiff) The supersymmetric Camassa-Holm equation and geodesic flow on the superconformal group, *Journal of Mathematical Physics* **42** (2001) 260-273; arXiv:solv-int/9811016
37. (with J. Nuyts) Democratic Supersymmetry, *Journal of Mathematical Physics* **42** (2001) 5840-5858; arXiv:hep-th/0010056
38. (with J. Nuyts) Super self-duality for Yang-Mills fields in dimensions greater than four, *Journal of High Energy Physics* **12** (2001) 020, 51pp; arXiv:hep-th/0109072
39. (with D.V. Alekseevsky and V. Cortés) Special complex manifolds, *Journal of Geometry and Physics* **42** (2002) 85-105; arXiv:math.DG/9910091
40. (with D.V. Alekseevsky, V. Cortés and A. Van Proeyen) Flows on quaternionic-Kähler and very special real manifolds, *Communications in Mathematical Physics* **238** (2003) 525-543; arXiv:hep-th/0109094
41. (with D.V. Alekseevsky and V. Cortés) Partially-flat gauge fields on manifolds of dimension greater than four, in *Special Geometric Structures in String Theory*, ed. D.V. Alekseevsky et al, Electronic Library of Mathematics, Proceedings Collection, European Mathematical Information Service, 8pp, <http://www.emis.de/proceedings/SGSST2001/>; arXiv:hep-th/0205030
42. (with D.V. Alekseevsky and V. Cortés) Yang-Mills connections over manifolds with Grassmann structure, *Journal of Mathematical Physics* **44**, No.12, (2004) 6047-6076; arXiv:math.DG/0209124
43. Beiträge zur Supersymmetrie und Lösbarkeit in klassischen Feldtheorien, Habilitationsschrift, Mathematisch-Naturwissenschaftlichen Fakultät der Universität Bonn, 2003
44. (with D.V. Alekseevsky, V. Cortés and A. Van Proeyen) Polyvector Super-Poincaré algebras, *Communications in Mathematical Physics* **253** (2005) 385-422; arXiv:hep-th/0311107
45. (with J. Nuyts and G. Weingart) Special graphs, *International Journal of Geometric Methods in Modern Physics* **3** (2006) 1011-1018; arXiv:math.DG/0604558
46. (with J. Nuyts and G. Weingart) Matryoshka of special democratic forms, *Communications in Mathematical Physics* **293** (2010) 545-562; arXiv:0812.3012

47. (with D.B. Fairlie, J. Nuyts, G. Weingart) Ternutator Identities

Journal of Phys. A: Math. Theor. **42** (2009) 475209; arXiv:0908.1738v2

Editorial work

1. Памяти Михаила Владимировича Савельева [In memoriam Mikhail Vladimirovich Saveliev], edited by C. Devchand, Yu. I. Manin and M.A. Olshanetsky, Теоретическая и Математическая Физика **123** no. 2 (2000) [*Theoretical and Mathematical Physics* **123** no. 2 (2000)]
2. Special Geometric Structures in String Theory, European Mathematical Information Service (EMIS) Proceedings Collection, edited by D.V. Alekseevsky, V. Cortés, C. Devchand and A. Van Proeyen; <http://www.emis.de/proceedings/SGSST2001/>

Book review

1. *Harmonic superspace* by A. S. Galperin et al., Cambridge Univ. Press, Cambridge, 2001; reviewed in *Mathematical Reviews*, 2003, MR 1865518 (2003d:81280)
